

REMUS Z KINILITAN

FULL STACK WEB DEVELOPER | AI INTEGRATION

Calulut, San Fernando, Pampanga • +63 969 142 4872 • remuszamora@gmail.com
<https://weayabo.github.io/>

SUMMARY

An Organized, Independent, and Self-Motivated Computer Science graduate who can perform well under pressure. Interested in web development, AI/LLM integration, and building responsive applications, software testing, and building responsive applications. I aim to perform at my highest level in every assignment, thrive in team settings, and possess a demonstrated capacity to learn and adjust rapidly.

WORK EXPERIENCE

UI/UX Designer Intern - Kilala Philippines

May 2026 - June 2026

- Redesigned the SP Dashboard with a two-state model (onboarding vs. active), reducing cognitive load and improving time to first value for new service partners
- Developed a full AI strategy identifying trust and communication drop-off as core product problems, translated into wireframe specs and an executive presentation
- Designed an AI-powered KYC flow with a three-outcome threshold model, skill validation, mutual trust scoring, and inquiry scaffolding to structure pre-chat conversations
- Collaborated with stakeholders to deliver design artifacts in Figma, Word, and PowerPoint, grounding every decision in real user drop-off data

Full Stack Developer Intern - Dakilasoft IT Solutions

February 2026 - April 2026

- Built and deployed a portfolio website via GitHub Pages and containerized TinaCMS with Docker (Next.js/Vue)
- Integrated MongoDB and KeyCloak as database and auth adapters in a Next.js project
- Refactored API/CRUD operations and implemented Redis caching for a criminology assessment system
- Performed QA testing on a mobile app and collaborated in an Agile team following coding best practices

IT Intern - PSU Library

April 2024 - May 2024

- Built a Library Attendance System using Java (Apache NetBeans) and MySQL, automating student entry tracking via barcode scanning and eliminating manual logging
 - Conducted user training and created a user manual for library staff, ensuring smooth system handover and day-to-day adoption
 - Collaborated with library staff to gather requirements and align the system with operational needs
-

EDUCATION

Pampanga State University

Associate in Computer Technology

- Dean's List Academic Achievement Award

Bacolor, Pampanga

June 2022 - June 2024

Bachelor of Science In Computer Science

- Cum Laude

Bacolor, Pampanga

June 2024- June 2026

PROJECTS

CareerLens | Thesis Project - PSU

- App Description : A web application that recommend career base on family occupation and academic background, it also showcase job market trends.
- Tech Stack: Angular 19 for the frontend and Node.js with Express on the backend, MySQL for database and deployed on Google Cloud Run with CI/CD.

Library Attendance System | On Job Training Project - PSU Library

- App Description : A software application that scan barcode based on student number when entering the premises of PSU library.
- Tech Stack: Java build in Apache Netbeans and using MySQL for database.

AI/ML PROJECTS

Job Fit Analyzer | AI Personal Project

- App Description: A web app that analyzes resume-job description fit, returning a match score, skill gaps, and PH-filtered job search links.
- Tech Stack: Next.js, Vercel AI SDK (@ai-sdk/google), Gemini API, Zod, deployed on Vercel.

Chat-with-Remus | AI Personal Project

- App Description: A RAG-powered chatbot that answers questions about my background in first-person, embedded into my portfolio.
- Tech Stack: Next.js, LangChain.js, Pinecone, Gemini embeddings, deployed on Vercel.

SKILLS

- Languages: HTML/CSS (Intermediate), Python, PHP, Java (Basic)
- Frameworks: Angular, Vue, Next.js, React, Django/DRF (Basic)
- Tools & Platforms: Figma, Git, MySQL, MongoDB , Docker, Google Cloud Platform, Vercel
- AI/LLM: Gemini API, LangChain.js, RAG, Pinecone, Prompt Engineering, Vercel AI SDK
- Other: API Integration, CI/CD Integration
